**Sponsored: New Works at the Canfin Gallery:** Tarrytown's Canfin Gallery will exhibit New Works from the celebrated French painter Jean-Francois Larrieu. The exhibit that will run from November 7-29 features 23 landscapes and cityscapes portraying some of the world's most iconic cities from Manhattan to Paris, Hong Kong and Miami. His works have been described as "exotic rhythms, an amalgamation of superimposed and repetitive

forms choreographed in mosaics, multicolored, multicultural, joyful and impressionable."

His intricate landscapes and cityscapes are stippled and overlaid with figures, trees and birds, creating a rich pictorial language, whose intimate vocabulary is influenced by his many travels abroad. Gallery owner Jean-Claude Canfin described the collection for us. "Larrieu's implementation and usage of insistent calligraphic type imagery speaks to a transcendent era of artistry and faith. Through the acute lens, and skillful hand of this artist, Larrieu transports us beyond the ordinary to such worlds both secreted and fantastical."
